

Sweet As Forage Sorghum®

Sweet sorghum forage hybrid

Seeding Rate	kg/ha
Dryland	4-8
High Rainfall/Irrigation	15-20
Soil temp for optimal establishment	16°C↑

Seed Treatment Enhanced or Standard

Description

Sweet x sweet forage sorghum hybrid

Market Segment/Target

Grazing, silage, green chop and stand over feed

Features

- Large seed size
- Late maturing
- High sugar content

Benefits

- High grain to plant material ratio to give you high energy levels in silage
- Large seed size for fast emergence and good seedling vigour
- High sugar content for better palatability and even grazing in stand over feed situations

Harvest Height

Grazing	initial graze/cut 1.5m re-graze/re-cut 0.5m
Hay/Haylage	1-2m
Greenchop	1.5m
Days to first cut/graze	approx 50

- Sweet As is a late maturing hybrid with good standability making it suitable for grazing, silage or standover feed
- High growth rates and yield potential make Sweet As suitable for multiple high yielding silage cuts
- The high sugar content in the leaves and stems provides high quality standover feed for cattle grazing and high quality silage

Rating scale: 1-9
1 - not recommended
9 - excellent
